International Bartender Course
European Bartender School

2014 - 2020
Hospitality & Sales
Pellegrino Artusi Chianciano Terme

Skills

Frontend

- React & Next.js
- Tailwind CSS & SASS & Emotion
- Redux Toolkit

Server

- Node.js & Python
- Express & Fastify & FastAPI
- MongoDB & PostgreSQL & Redis
- JWT & JWE & Encryption

Testing

- Jest & Vitest & Pytest
- Playwright

DevOps

- Nginx & Ngrok
- CI/CD (GitHub Actions)
- Docker & Zsh

Development Experience

Next PERN Learning Platform

- Structured with Turborepo for modular code sharing across environments, including shared types, validation schemas, and reusable utilities
- Assets uploaded to Cloudinary and managed via a polymorphic CloudAsset model for flexible entity association
- Server-side Redux store setup to manage async operations across SSR and CSR components, with cache persistence handled via tag-based invalidation tied to specific API endpoints

GitHub Repository   Live on Fly.io

Built with: TypeScript, Next.js, Webpack, Redux, Fastify, PostgreSQL and Prisma.

PERN Stack BookStores App

- Full Auth-flow including recover & deletion account
- Stripe checkout & webhook
- Role-based management store, stock, and order management
- Dockerized deployment
- Developed a secure local HTTPS environment with Nginx reverse proxy and Ngrok tunnel for webhook testing

GitHub Repository   Live on Fly.io

Built with: TypeScript, Vite, React, Redux, Express, PostgreSQL and Sequelize, Stripe.

MERN Stack Food Delivery App

- Implemented cart sync between guest and authenticated sessions, with user-facing feedback for conflict resolution
- Order tracking with real-time status updates
- Cloud image uploads for restaurant menus and dish items
- Global state management via custom context split by feature

GitHub Repository   Live on Render.com

Built with: TypeScript, Vite, React, Express, MongoDB and Mongoose, Stripe.
